THE STREAM OF GRACE

Particular Redemption and Why It Matters

AUSTIN WALKER

Austin Walker explains the biblical doctrine of particular redemption and its importance for assurance, preaching, evangelism and the Christian life, directing readers to Christ's finished work.

Dr Robert Strivens

A concise, pastoral treatment of definite atonement that answers common questions about election, the warrant of faith and the free offer of the gospel.

FISHING FOR MEN

How Jesus Calls His Church to Reach the World

GEOFFREY THOMAS

We study the gospel, discuss it and defend it. But are we sharing it? Geoffrey Thomas brings us back to Christ's call to become fishers of men. With searching application, vivid illustrations and warm pastoral encouragement, he urges every Christian to take up the work of making the Saviour known.

Across fourteen chapters, Thomas explores Christ's preaching, his miraculous provision, his call to discipleship, his power to save and his complete sufficiency in the Gospel.

For Christians conscious of their weakness, this book offers an enduring encouragement: Christ equips his people for the work he gives them, and their labour in him is never in vain.

A CHOICE DROP OF HONEY FROM THE ROCK OF CHRIST

THOMAS WILCOX

First published in 1664, this little work directs weary believers to the sufficiency of Christ and his perfect righteousness. It quickly became a treasured devotional classic, crossing national, linguistic, and denominational boundaries.

The Anglican William Romaine and the Scottish Presbyterian Horatius Bonar both prepared editions, while the work also circulated among early Methodists. Isaac Backus reported that it was “much esteemed in New-England” and translations carried its message into Welsh, German, Swedish, Finnish, and Gaelic.

“I think it more honour… and more glory to have written old Thomas Wilcocks’ book, A Choice Drop of Honey from the Rock Christ… than all the works of Homer.” – Charles Haddon Spurgeon

THE ASCENSION

A Forgotten Gospel Doctrine

PATRICK ABENDROTH

For centuries, Christians have confessed that Jesus “ascended to heaven and is seated at the right hand of the Father.” Yet this glorious truth too often fades into the background of our faith.

In The Ascension, Patrick Abendroth unveils the breathtaking reality of Christ’s exaltation. Far more than a simple departure from earth, the ascension is the crowning triumph of the gospel—Jesus’ enthronement as the long-promised Messiah, the inauguration of the new creation, and the pouring out of His Spirit.

A COMMENTARY ON THE BAPTIST CATECHISM

JIM SCOTT ORRICK

For centuries, the Baptist Catechism has served as a clear and faithful summary of biblical doctrine. Derived from the Westminster Shorter Catechism and adapted by Particular Baptists in the seventeenth century, it has helped generations of believers understand the foundations of the Christian faith.

In this accessible commentary, Jim Scott Orrick provides a practical guide through the catechism's questions and answers. This is a modern commentary, which seeks to address and explain the doctrines within the Catechism, and showing how they apply to the life of the believer today.

WHAT IS A REFORMED BAPTIST?

An Overview of Doctrinal Distinctives

TOM HICKS

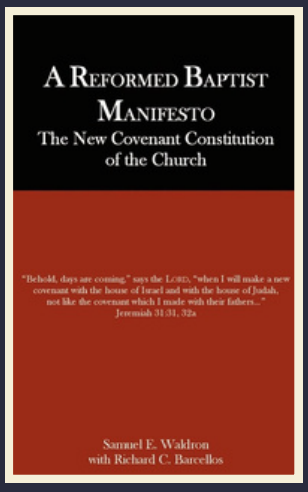

This work is not a polemical defense, nor is it an insider's manual bristling with theological jargon. Rather, it is a pastoral, positive articulation of what it eans to be a confessional Reformed Baptist—one rooted in the historic Second London Baptist Confession of 1689. With depth and clarity, Dr. Hicks traces the theological and historical lineage of Reformed Baptists, arguing persuasively that they are not a peculiar sect but a faithful expression of biblical Christianity within the Reformed tradition.

THE BAPTISM OF DISCIPLES ALONE

A Covenantal Argument for Credobaptism versus

FRED MALONE

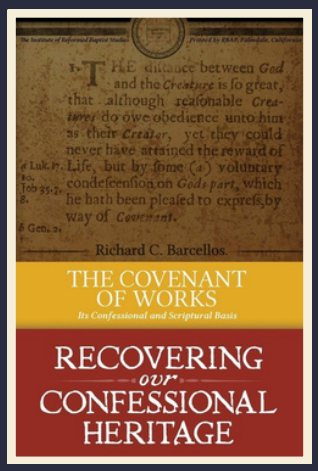

Fred Malone's long published work 'The Baptism of Disciples Alone' is a classic 'must-read' treatment for those thinking through the issue of baptism and its practice in the church. Should we baptize infants? What does the Bible say? And how are we to engage with the common arguments often made in favour of infant Baptism? Malone deals with these questions and many more, showing us the biblical arguments that turned him away from the Baptism of infants and towards the Baptism of disciples alone. This newly bound and designed edition is a welcome contribution to our Bookshop and will stimulate any and all that consider its arguments from Holy Scripture.

COMMENTARY ON ROMANS

ROBERT HALDANE

Robert Haldane's Exposition of Romans, both in its contents and in the power of its influence, stands among the foremost of the many treatments of the epistle. As a commentary, Thomas Chalmers 'strongly recommended' it; Spurgeon put it in the front rank, and more recently, Martyn Lloyd-Jones owed 'much profit and pleasure' to it, characterising its contents as unsurpassed in 'warmth of spirit' and 'practical application'.

'Dr. Chalmers styled this "a well-built commentary", and strongly recommended it to students of theology. In his "Sabbath Readings" he writes: "I am reading Haldane's Exposition of the Epistle to the Romans, and find it solid and congenial food."' — C. H. Spurgeon

ALL THAT IS IN GOD

Evangelical Theology and the Challenge of Classical Christian Theism

JAMES DOLEZAL

James E. Dolezal defends the classical Christian doctrine of God, explaining divine simplicity, immutability and aseity against modern revisions. His convincing critique of the newer position he styles “theistic mutualism” is philosophically robust, systematically nuanced, and biblically based.
Arguing carefully and cogently that all that is in God is God Himself, the work is sure to stimulate much debate in the years to come.

Contemporary introduction to classical theism and the need to recover it in the current evangelical climate.

CRISIS OF CONFIDENCE

Reclaiming the Historic Faith in a Culture Consumed with Individualism and Identity

CARL R. TRUEMAN

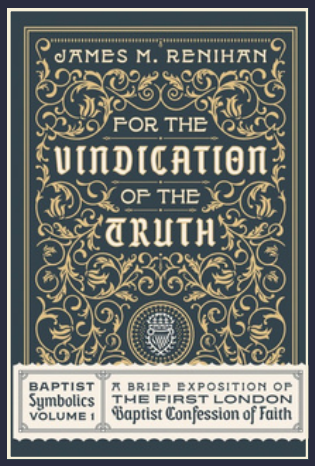

Carl R. Trueman argues that Western culture, with its obsession with individualism and self-identity, has turned Protestants away from their creedal heritage – leaving them with the vulnerability of minimalist statements of faith and a reactionary posture towards the challenges of the culture.
He shows from the Scriptures and church history why historic creeds and confessions are essential for Christians today, if they want to hold fast to the truth.

(Baptist Symbolics Vol. 2)

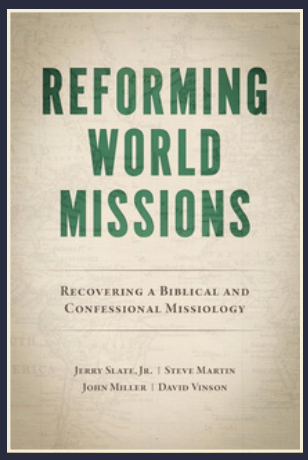

JAMES M. RENIHAN

In this volume, James M. Renihan provides a scholarly commentary on the Second London Baptist Confession of Faith by setting each chapter within its post-Reformation and Puritan theological context and demonstrating how the original churches and ministers who framed the Confession understood its doctrines. Drawing extensively from primary sources, Dr Renihan shows modern readers how the Confession arose from a rich ecosystem of biblical interpretation and theological reflection. His research allows readers not merely to interpret the Confession, but to enter the world of those who first penned it.

COMMUNION WITH GOD

JOHN OWEN

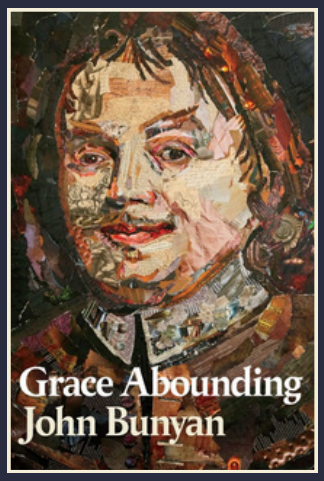

In this remarkable book, Owen seeks to explain not merely that communion with God is possible, but what it truly means for the believer. He shows that Christian fellowship is not a vague feeling of religious comfort, nor merely the acceptance of theological truths, but a living, personal relationship with each person of the Godhead.
Owen writes as one who knew by experience the sweetness of fellowship with God, and who longed to lead others into that same joy. This book invites readers to move beyond a merely formal religion into a life of intimate, reverent, and joyful communion with the living God. Few works speak so powerfully to the believer's heart or so beautifully reveal the love that flows from the triune God to His people.

HISTORY OF THE ENGLISH CALVINISTIC BAPTISTS 1771-1892

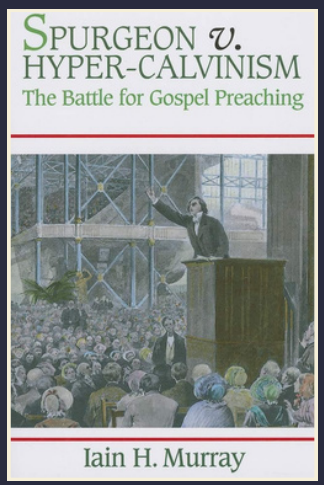

ROBERT OLIVER

The aim of this book is to trace the story of the English Calvinistic Baptists from the death of John Gill in 1771 to that of Charles Haddon Spurgeon in 1892. It deals not only with the well-known figures in this community's history- theological giants like John Gill, Andrew Fuller, William Gadsby, and Charles Spurgeon–but also with lesser-known lights–men like the hymn writer Benjamin Beddome, the eccentric John Collett Ryland, Abraham Booth, and John Stevens. Wide and deep reading in the writings of these men has given Dr. Robert Oliver an excellent grasp of their various theological perspectives.

The Battle for Gospel Preaching

IAIN MURRAY

Warmly written and meticulously researched, this book not only illuminates a defining episode in Baptist history but also points every reader back to the centre of Spurgeon's life and ministry: the free and universal proclamation of a sovereign Saviour.

THE THEOLOGY OF ROBERT HALL JR.

The Undermining of Calvinism among the English Particular Baptists

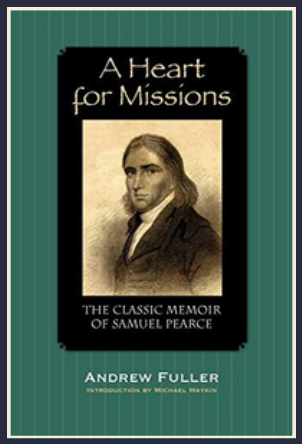

AUSTIN WALKER

"In this valuable historical work, Austin Walker traces the decline of Calvinism among Baptists to the early nineteenth century, suggesting that this gradual doctrinal erosion was due, in great part, to the life, thought, and legacy of a largely forgotten minister named Robert Hall Jr., a social reformer, spellbinding orator, and preacher of questionable orthodoxy... Walker's investigation is not only beneficial for Baptists seeking to reconnect with their Reformed roots, but it is also a sobering warning to the church against the perennial snare of separating piety from doctrinal orthodoxy." – Joel R.
